- Creates historical backup versions with full system restore to a point in time
- System Rollback—rolls back your PC system settings to a better point in time while keeping data current*
- Automatic Synchronization of data between two or more computers
- Soft-touch over-mold enables stable grip for transport

Backup and storage made simple for Mac and Windows® users

Your digital data—photos, videos, email, documents, and music—is precious to you. Everyone knows the most effective way to safeguard your files is to backup your computer, but some may fear it will be a long, complicated process. But it's not! The Maxtor OneTouch III solution gives you a simple, reliable, and automated backup solution that can be managed with a touch a button.

Backup, Store, Protect, Simple

This handsome unit plugs into your personal computer via a USB or a FireWire 400 port. Simply plug in the drive and the Maxtor OneTouch III appears on your desktop. Easy to use installation and backup software will have you up and running in minutes. Designed based on customer feedback to fit into your daily lifestyle, the Maxtor OneTouch III solution includes automatic synchronizing of data between your laptop, home, and work systems. We even designed it to easily stack additional storage drives later if you need to, without any additional stands or clutter.

Using the included EMC® Dantz™ Retrospect™ Express HD software, you can easily set the Maxtor OneTouch III solution to back up your data automatically, or at the touch of a button. And for those who need it, the Maxtor OneTouch III solution also lets you effortlessly synchronize files between your home and workplace computers on the same operating system. The versatility of dual interfaces also allow expandability, up to 62 FireWire devices or 127 USB 2.0 devices with a USB hub.

For added security, the Maxtor OneTouch III solution comes with Maxtor DriveLock and System Rollback. With the Maxtor DriveLock feature you can password-protect the drive against unauthorized users or in case of loss. The System Rollback feature can roll back your PC system to a better point in time, such as before a virus attack, while keeping your data current*.

The Maxtor OneTouch III solution is ideal for anyone who needs:

- a simple, reliable, and automated backup solution
- additional storage space
- synchronization between two or more computers
- enhanced protection for their data
- an expandable drive solution

The Maxtor OneTouch III solution – there's no better way to add storage capacity and data backup to your computer.

*Windows only

Specifications

Capacity (model #)
200GB (F14A200)
300GB (F14G300)
500GB (F14G500)

Hard drive:
3.5-inch ATA

RPM
7200 RPM

Integrated Interface
– FireWire 400, IEEE 1394, i.LINK and SBP-2 compliant
– USB 2.0 and 1.1 compliant

Cache Buffer
16MB—300GB, 500GB
8MB—200GB

Platform
PC

Performance
– Average seek time: ≤ 9.0 ms
– Sustained transfer rate (maximum):
USB 2.0 — 33 MB/sec
FireWire 400 — 43 MB/sec
– Bus transfer rate (maximum):
USB 2.0 — 480 Mb/sec
FireWire 400 — 400 Mb/sec

Environmental Specifications
– Operating temperature:
5°C to 35°C (41°F to 95°F)

Physical Specifications
– Dimensions: 5.3x2.6x8.5 inches (136x65x217mm)
– Weight: 3.2 lbs (1.45 Kgrams)

System Requirements
PC
– Pentium III, 500 Mhz equivalent processor or higher
– Windows 2000 or XP
– 128 MB (256 recommended) RAM or more as required by operating system
– CD-ROM drive
– Internet connection (for system updates)

Mac
– Mac OS X (10.2.8 or later): 128 MB (256 recommended) RAM or more as required by operating system
– CD-ROM drive
– Internet connection (for system updates)

Includes
– External hard drive
– USB cable
– 6 to 6 pin FireWire 400/1394/i.LINK cable
– External AC power adapter
– Installation CD with backup software and User Guide
– Quick Start Guide
– Maxtor 2-years limited warranty
